REQUIREMENTS TO ENABLE REGISTRATION FOR REGULAR PATIENT STATUS

If you wish to register with the practice, please note that we ask you to produce proof of residency within our catchment area.

We currently take new patients with a postal address in Three Bridges, Pound Hill, Worth, Maidenbower, Furnace Green, Tilgate, Northgate, Copthorne and Forge Wood.

You will be asked to fill in the Practice's Registration Forms and we ask you to bring the following items with you which will help us to access your past medical history. This will mean we can give the best possible care for your own personal circumstances.

- Photographic ID (i.e. Passport, European I.D. Card or UK driving licence);
- Proof of address dated within the last 3 months (i.e. utility bill or bank statement or mobile telephone bill or tenancy agreements or council tax demand);
- NHS medical card or NHS number (if you have one).

If you do not have a passport or UK driving licence, your birth certificate will suffice.

*For those persons who are requesting permanent registration and who have come from a country which is outside of the EU, we require you to be resident for at least six months and therefore hold a visa which is valid for at least six months.

NB: We can only process registrations Monday to Friday between 2.30pm and 5.30pm. If you come at another time, we apologise, but we will ask you to come back when the registration desk is open.
